

 ANAL PLUGS

TWO FLANGE

The Adept Two Flange Plug is the new standard in faecal contamination control. This plug is the outcome of extensive research and development, resulting in a uniquely effective patented design that delivers industry leading results.

- > The two flange design offers a double barrier to prevent leakage. Any material that leaks past the first flange is captured in the cavity between the two flanges.
- > Fast and easy to insert.
- > Cost effective.
- > Effective faecal contamination control across varied stock types and conditions.
- > Suitable for Bovine bobby calves.
- > Inserted using the pneumatically assisted F4 Inserter or manually using the Two Flange Plug pusher.

Product Code	1324-003
Supplied	1,000 plugs per carton (bulk packed)
Material	Plastic
Colour	White (additional colours available on request)
Carton Dimensions	L: 475mm, W: 335mm, H: 375mm Weight: 4KG
Applicators	Two flange plug pusher (0142-060) F4 Inserter (1503-810)

TWO FLANGE SOLUBLE

The Adept soluble two flange plug is the outcome of extensive research and development, resulting in a uniquely effective patented design that delivers industry leading results with no environmental impact or recovery cost. The plug is manufactured from food grade material that retains its structural integrity long enough to be effective before completely dissolving.

- > Zero non-organic material in rendering by-products
- > Environmentally responsible
- > ADSOL is Adept's proprietary water soluble technology, formulated from food grade components
- > No requirement to recover after use
- > Fast and easy to insert
- > Effective faecal contamination control across varied stock types and conditions

Product Code	1324-004
Supplied	1,000 plugs per carton (bulk packed)
Material	Water Soluble (Adsol)
Colour	Natural
Carton Dimensions	L: 475mm, W: 335mm, H: 375mm Weight: 7.9KG
Applicators	Two flange plug pusher (Bovine 0142-060), Two flange plug pusher (Porcine 0142-100) F4 Inserter (1503-810)
