

Beef Throat Plugs

Plastic

The Adept Beef Plug can be used to provide temporary oesophagus occlusion (weasand sealing) prior to application of the Adept Weasand Clip. Adept's Beef Plug is fast and simple to insert using the Adept Throat Plug Pusher tool. The plug delivers effective short term ingesta control.

- Forms a secure internal seal of the weasand that blocks immediate release of ingesta
- Fast and easy to insert
- Highly effective faecal contamination control across varied stock types and conditions
- Designed for minimal insertion resistance

Product Code	1221-002 – Beef Throat Plug (Plastic) 0162-001 – Beef Throat Plug Small (Plastic)
Supplied	1221-002 - 1,200 plugs per carton 0162-001 - 1,000 plugs per carton
Colour	White
Material	Food contact safe plastic
Carton Dimensions	Length: 460mm Width: 315mm Height: 380mm Weight: 10.3KG
Applicator	1221-003 – Beef Throat Plug Pusher 1221-840 – Beef Throat Plug Pusher – Water Flushing

Soluble

The Adept Soluble Beef Plug offers the same temporary oesophagus occlusion as the Beef Plug with the added benefit of being water soluble. The plug is made from Adept's water soluble material ADSOL and safely dissolves after use.

- ADSOL is Adept's proprietary water soluble technology, formulated from food grade components
- No need or cost to recover as the plug dissolves inside the paunch (zero impact on paunch waste stream)
- Forms a secure internal seal of the weasand that blocks immediate release of ingesta
- Environmentally responsible
- No requirement to recover after use

Product Code	1221-017 – Beef Throat Plug (Plastic) 0162-002 – Beef Throat Plug Small (Plastic)
Supplied	1221-017 - 1,200 plugs per carton 0162-002 - 1,000 plugs per carton
Colour	Natural
